

Realising The Vision Of A Sharing Economy In Real-Life Transactions With Odyssey and Ducatus

Fostering a Shared Vision

With the flourishing digital economy comes a financial system that defies boundaries. Now, more than ever, the agility that comes with innovation is increasingly apparent in business transactions - such is the partnership between Odyssey and Ducatus.

To further its sharing economy vision, Odyssey has partnered with Ducatus to allow users to transact using the Odyssey Coin (OCN) at Ducatus platforms, the first of which is the acceptance of OCN at the Ducatus Café in Singapore.

Sophie Guan, Project Lead & Director of Odyssey Protocol Foundation said “we are very thrilled to partner with Ducatus who share the same vision as us which is to enable the usage of crypto currency in real-life platform. Ducatus Café will be our first merchant partner to accept OCN as a payment mode in their café. Ducatus have very strong plans ahead and we are more than happy to join them in their journey and to have them on ours.”

In harnessing a real global currency, Ducatus is creating an ecosystem that links Ducatus to people and the various industries that serve their needs, from lifestyle, travel and hospitality, to health, charity and more. It is powered by a combination of world-class digital infrastructure, an extensive network distribution system and a suite of related Crypto-Economy businesses, including Ducatus Cafes in Singapore and Bali, and a projected 100 more franchises worldwide in the next 3 years.

Ronny Tome, CEO of Ducatus reinforces the importance of strengthening connections, “At Ducatus, our greater goal is acceptance. And we see our partnership with Odyssey as another step towards realising this goal. We believe that the more connections we make with enterprises that share our ideals, the faster we can solidify our place in everyday business transactions – from enjoying a cup of coffee to paying for a bike ride.”

With the new partnership, Odyssey and Ducatus aim to help more people advance to an even better financial future, one that is inclusive, liberal, and empowering for all.
